## BASIC REQUIREMENTS FOR ALL AD SIZES

- 1) START date of ad campaign
- 2) END/ THRU date of ad campaign
- 3) Name of the BNP Media publication website the ad is to run on [with specific page(s) & location(s) within the page if applicable]
- 4) Creative for the ad including applicable responsive sizes per the chart below (the file to be used, or related artwork and requirements if we are to create it—see SPECIFICATIONS at right)
- 5) Web address that the ad should link to (target URL)

- All web ads should be sent via email to the sales representative. Display Ads can typically be activated online on the day the completed ad information is received.
- Rich Media Preferred Submission Lead-Time: Minimum 3 business days before campaign start.
- BNP Media websites are responsive and several ad positions require additional creative sizes for tablet and mobile experience.

## DISPLAY ADS

**ANIMATION:** 15 seconds max within ad units without being reintiated by user.

**FILE FORMATS:** JPG, PNG, GIF (static or animated), HTML5, Third Party Ad Tags\*\*

### HTML5 BEST PRACTICES:

(Best practices provided in more detail in IAB's

"HTML5 for Digital Advertising")

HTML5 ads are like mini web pages. You can improve initial display by following a few guidelines:

- Provide inline CSS and use HTML to deliver initial display resources as much as possible
- Limit initial dependencies on any render-blocking .js or .css
- Load interactive elements as a deferred or secondary subload, but keep them efficient using techniques such as caching.
- Defer heavy file weights until user initiates interaction.
- Use techniques such as byte-serving to download partial content and to optimize for auto-play video.
- Avoid any unnecessary downloads.
- Prevent delays. [Test your HTML5 creative with this easy tool.](#)

All components of display ads, including creative, tracking and 3rd party tags, must be able to serve via SSL (<https://>).

### BORDERS REQUIRED!

Any ads featuring a white background are required to have a 1 pixel grey border (#CCCCCC ONLY) around the perimeter of the ad in order to separate it from page content.

## RICH MEDIA (blue shaded ads)

### ANIMATION

**WITHIN AD UNITS:** 15 sec max length (unlimited user initiated), 1.1 MB max file size for host-initiated video (unlimited user initiated)

**BILLBOARD:** 30 sec max length (unlimited user-initiated) 2.2 MB max file size for host-initiated video (unlimited user-initiated)

**MAX VIDEO & ANIMATION FRAME RATE:** 24 fps

**\*\*3rd party ad tags are accepted, provided the ad already functions correctly as rich media (expands/contracts, working close button, etc.).**

**PUSHDOWN ADS** will expand/contract on click.

**ADHESION ADS** will feature a prominent close button in the upper-right corner. All ads must load muted; user-initiated sound on click only.

### IN-AD VIDEO SPECS

**DURATION:** 15 seconds; **ON LOAD:** No sound; **ON CLICK:** All sound & animation must stop. Must include progress bar, play/pause/stop button, mute/unmute button.

### SPONSOR CONTENT PIECE

BNP Media brands maintain editorial integrity and encourage you to submit high-quality objective and **NON-COMMERCIAL content** that would be considered valuable to our readers. For example, an article about trends or industry solutions would be more appropriate than an article about your products or services. Content may be in article format (blog, listicles, how-to, etc.) or video format. We have the right to review, edit or refuse sponsor content as determined by the editor or publisher. Standard advertising terms and conditions (as well as content copyright terms), as outlined on the insertion order, also apply. All sponsor content will be labeled as such, and the relationship between the advertiser and the brand will be transparent.

**If BNP Media is producing your content through BNP Engage, let us know!**

### ADDITIONAL INFORMATION

**Text ads can also be included in eNewsletters.** Text ads should be kept to approximately 50 words or less. A 230 x 141 pixel image may also be used to supplement the text ad. For text ads promoting advertiser videos, the supplemental image may be closer to 230 x 129 instead, if that works better (due to the ratio of the video screenshot). Text ads promoting advertiser podcast ads include a standard microphone image that we provide, unless the advertiser prefers to use their own image instead. All text ads are required to include the word, "Advertisement" above the text ad.

*\*See example image below*

#### Sponsored videos can also be included.

The Supplied Video Package, or Produced Video Package, includes promotion in the Brand's eNewsletter. The video promotion will be created from assets already received as part of the package.

### EMAIL RENDERING WITH OUTLOOK

Please note that the Outlook DOES NOT support animated gifs. For those recipients who use Outlook, the ad will be static; only the first frame will display. Therefore, if your ad is an animated gif, be sure to place your call to action in the first frame.

**Supplemental image (optional):**

- Follow image guidelines above
- The image is linked to the advertiser's site

**"Advertisement"**

**\*Advertisement\* is required above the title**

Warm Tortillas for Better Filling and Folding

Grote's new Inline Tortilla Warmer uses heat and optional mist to condition tortillas and flat breads for wraps and burritos—drastically reducing cracks and improving quality.
